Global X U.S. Infrastructure Development ETF

ETF Category: Thematic - Infrastructure & Environment
As of 2/29/2024

REASONS TO CONSIDER

Compelling Need

The American Society of Civil Engineers assigned a letter grade of C- to the state of U.S. infrastructure in its 2021 report card, highlighting the need for investment.⁽¹⁾

Multiple Long-term Catalysts

America is committed to improving its aging infrastructure. The Infrastructure Investment and Jobs Act, Inflation Reduction Act, and CHIPS and Science Act appropriated nearly \$1tn to fund critical infrastructure projects.

Unconstrained Approach

As the economy evolves, so do infrastructure needs. PAVE seeks to capture this trend by investing in companies that are part of the infrastructure theme, regardless of sector or industry classification.

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short-term performance, when observed, is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized.

DEFINITIONS

Indxx U.S. Infrastructure Development Index

The Indxx U.S. Infrastructure Development Index is designed to measure the performance of U.S. listed companies that provide exposure to domestic infrastructure development, including companies involved in construction and engineering, production of infrastructure raw materials, composites and products, industrial transportation and producers/distributors of heavy construction equipment.

(1) American Society of Engineers, Mar 2021

Investing involves risk, including the possible loss of principal. Narrowly focused investments typically exhibit higher volatility. Investments in infrastructure-related companies have greater exposure to the potential adverse economic, regulatory, political and other changes affecting such entities. Investment in infrastructure-related companies are subject to various risks including governmental regulations, high interest costs associated with capital construction programs, costs associated with compliance and changes in environmental regulation, economic slowdown and excess capacity, competition from other providers of services and other factors. PAVE is non-diversified. The information provided is not intended for trading purposes, and should not be considered investment advice.

Carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the Fund's full or summary prospectus, which may be obtained by calling 1.888.493.8631, or by visiting globalxetfs.com. Please read the prospectus carefully before investing.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Beginning October 15, 2020, market price returns are based on the official closing price of an ETF share or, if the official closing price isn't available, the midpoint between the national best bid and national best offer ("NBBO") as of the time the ETF calculates current NAV per share. Prior to October 15, 2020, market price returns were based on the midpoint between the Bid and Ask price. NAVs are calculated using prices as of 4:00 PM Eastern Time. The returns shown do not represent the returns you would receive if you traded shares at other times. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.
